VOLUME 6
Volume 6
of the Saturnled Catalogue

The consistent evolution of our product range has meant that this catalogue has been extended by nearly 30 pages compared to the last edition offering you more LEDs of the highest standards.

We also continue to deliver the highest possible standards both in terms of the high-quality products we offer and in the fast and efficient service we provide. Our Distribution Centres in Northern Ireland and England ensure we can guarantee next-day delivery anywhere in the UK and Ireland.

This is all part of the superb, all-round approach to customer service that we have developed to perfectly merge the integral factors of price, quality and service into one cohesive philosophy.

We are confident that you will find the LED solutions you need and look forward to working with you.

Mark O’Connor,
Managing Director

www.saturnled.eu
Easilite 1.0 is an easy-to-install lighting module that transforms existing lighting into a smart lighting system that is controlled by a smart device through Bluetooth connectivity.

**PRODUCT CODE** | **DESCRIPTION**
--- | ---
EASILITE1.0 | EASILITE BLUETOOTH DIMMER

**THE NUMBERS**

**Easilite Networks**
- **Network Size**: 127 Modules
- **BLE Range Between Units**: 30M
- **No. of Networks**: Each easilite can only be linked to one network

**Cross Platforming on Devices**
If your family are on either side of the Apple/Android fence don’t worry the modules can be controlled simultaneously from either device.

**Dimming method**
- **Trailing-edge phase control**

**Input**
- 85-240 V AC 50-60 Hz
- 0.65 A

**Output**
- Incandescent and high voltage halogen bulbs:
  - 150 W @ 230 V AC
  - 70 W @ 110 V AC

- High voltage AC LED modules:
  - 150 W @ 230 V AC
  - 70 W @ 110 V AC

**Dimmable LED and CFL bulbs**
- 50 W @ 230 V AC
- 25 W @ 110 V AC

**Dimmable electronic transformers**
- 50 W @ 230 V AC
- 25 W @ 110 V AC

**Max. output current**
- 0.65 A

**Min. load requirement**
- 1W

**Max. inrush current**
- 1W

**Protection**
- IP20
EASI SWITCH is a wireless user interface that brings huge flexibility to interior design as furniture can be replaced or even walls can be rebuilt without having to take wiring of switches or switch placement into account. The switch can be kept wherever the user needs it and it gives direct access to all the important easi lite control functionalities.

**WALL SWITCHES**

*DIM UP, DIM DOWN:*
Smooth dimming of last chosen preset

*MULTIPURPOSE BUTTONS:*
Change of colour temperature in steps of 25 Kelvin
Change of the indirect/direct ratio

*PRESET BUTTONS:*
Individual luminaire control
Group control
Control of all lamps
Recall scenes
